- ✓ 100% PNGVN2 + 15% Extra
- ✓ 10% PNGVN

## GOLD BUNDLE

\$3,900

- ✓ 100% PNGVN2 + 20% Extra
- ✓ 10% PNGVN

\*4.5% transaction charge applies on all products

# COMPENSATION PLAN

1

**DIRECT  
BONUS**

2

**PAY LEG  
VOLUME**

3

**BINARY  
MATCHING**

The information in this presentation is based on Sales Volume reflective of our product price and is for illustrative purposes only and not a guarantee of earnings.

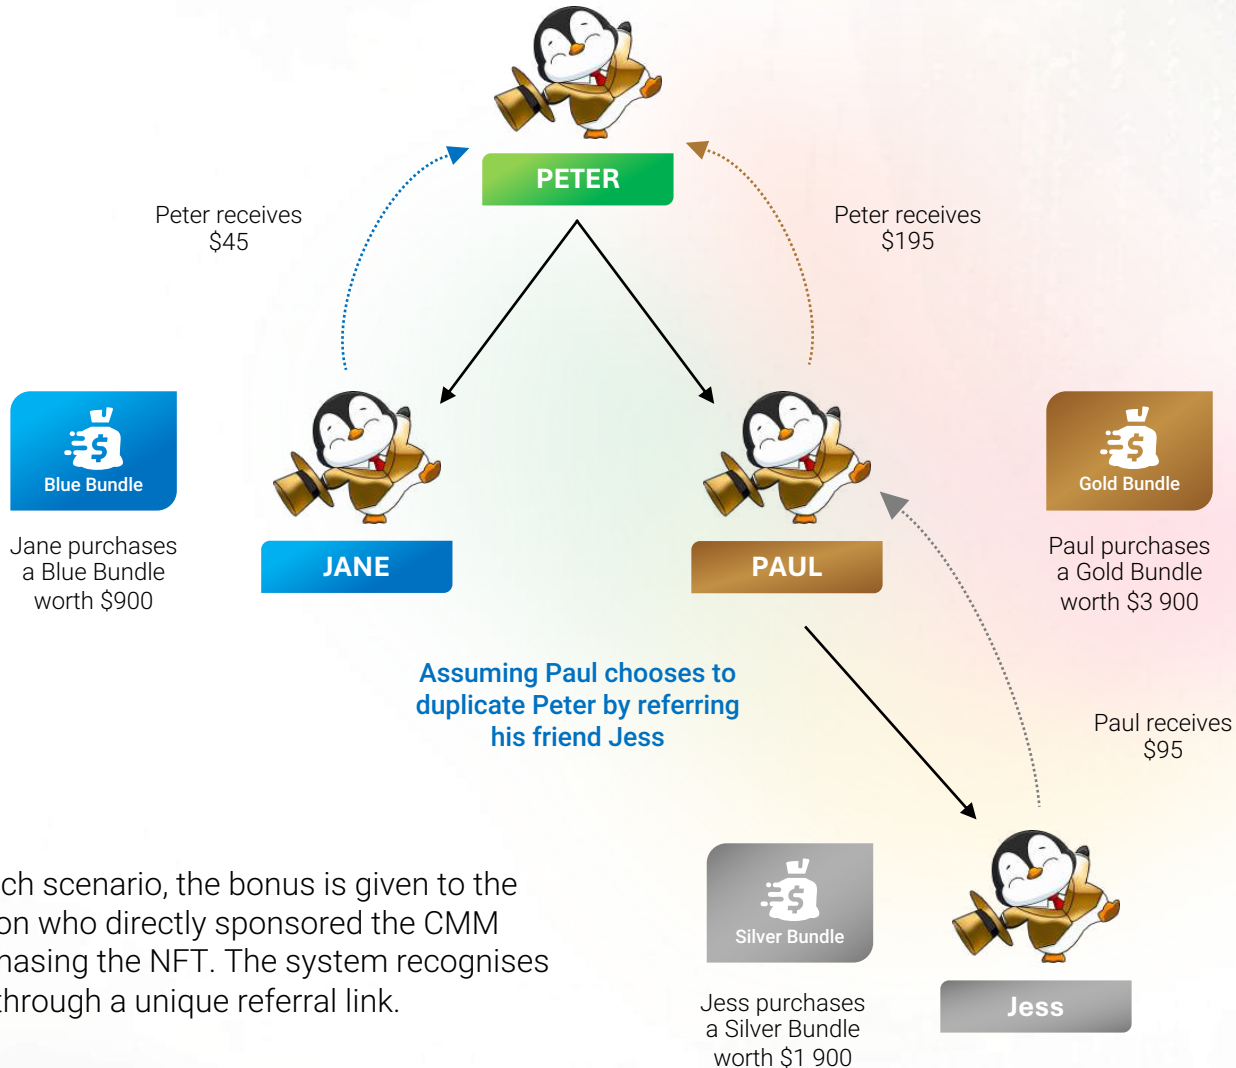

## DIRECT BONUS

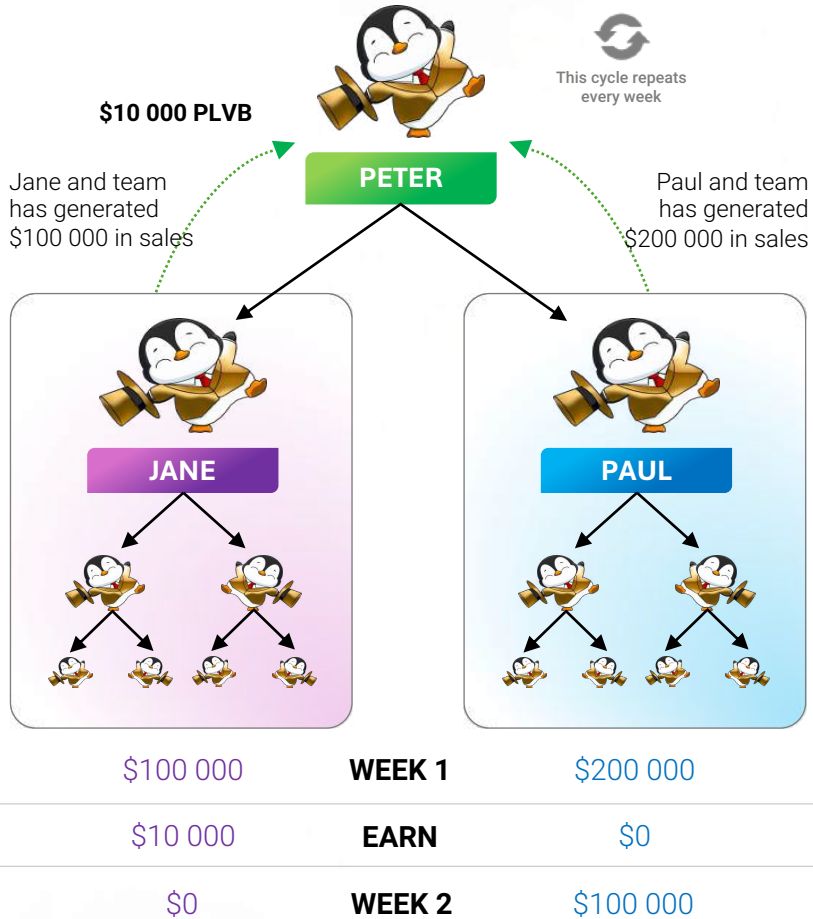

A PNGVN Community Marketing Member (CMM) can earn 5% Direct Referral Bonus on every NFT a member purchases that they personally introduce.

A CMM can directly sponsor more than two people and as many as they wish. In the example shown Peter has sponsored Paul and Jane. If Peter sponsors another person, they will be sponsored from left to right, and can be moved by the sponsor if they wish to within 24 hours,

Note: Direct Referral Bonus is given every time a member purchases or repurchases any NFT

In each scenario, the bonus is given to the person who directly sponsored the CMM purchasing the NFT. The system recognises this through a unique referral link.

This cycle repeats every week

Jane and team has generated \$100 000 in sales

Paul and team has generated \$200 000 in sales

In PNGVN, the community network is built on the binary model. New CMMs are introduced into a system that resembles a tree-like structure where each new member of the organization has two available positions below them, one on the left side and the other on the right side of their network tree.

As members continue to replenish the left and right side of their organisation with CMMs who purchase NFT's, the system calculates how much business is generated up to an infinite level on both left and right sides of their organization from Thursday to Thursday NYC time and pays out 10% in bonuses on the volume of the lesser side which is referred to as the 'Pay Leg'.

Should a CMM recruit more than two people, the third person will be placed below in the team of one of the first two CMMs sponsored earlier, meaning that one CMM will benefit from spillover.

The system requires both left and right sides of the CMM's network tree to be active and operational. This means that sales must be generated on both left and right sides of the network tree to qualify for PLVB.

Once the bonus is generated from the Pay Leg which is the lesser side, the business volume is flushed out for the respective side, and the figure rests to zero. It is highly unlikely that business will build identically on both sides of the organisation. In most cases there is always a difference in business volume between the left and right side. The system calculates the difference between the lesser and greater side and carries the difference in business volume forward for the greater side. This means that a CMM will not start each week with zero on both sides of their network tree, only on the lesser leg.

Note (1) Assuming Peter's left and right side generate an equal sales volume of \$100,000, John is still paid \$10,000 PLVB, however for the following week, the volume for both sides are flushed out and return to zero. (2) Spillover sales generated within a team count towards PLVB. (3) PLVB is not capped. (4) All sales from monthly renewals and multiple purchases generate business volume and count towards PLVB

## PAY LEG VOLUME

In the PLVB, a CMM earns bonuses not just on sales generated by the people they directly sponsored but also on sales generated by referrals of their team members. Moreover, the PLVB allows for an opportunity to benefit from the sales generated by CMM's who are not personal recruits or referrals of personal recruits. Such is the nature of a binary system. The PLVB is where the individual can maximise the potential of the PNGVN compensation plan by taking advantage of the process of leveraging as they begin to build a global distribution channel, similar to a franchise business model.

For Week 1 Peter receives \$10 000 in Pay Leg Volume bonus for the volume generated on the lesser (left) leg.

For week 2, the difference between the lesser and greater leg is calculated and carried over. Accordingly, Peter starts week 2 with \$100 000 on the right leg and 0 on the left leg.

# Earn Weekly on all NFT Sales

You can have unlimited personal invitees on your first level

You must have an active NFT to match level earnings

Level 1 earn 10% of the total sales volume earnings

L1

Level 2 earn 10% of the total sales volume earnings

L2

Level 3 earn 15% of the total sales volume earnings

L3

Level 4 earn 20% of the total sales volume earnings

L4

## BINARY MATCHING

A CMM is entitled to 4 levels in Binary Matching Bonus sales volume, to qualify for L1 and L2 you need an active NFT up to the value of \$200, to qualify for all 4 levels you need an active NFT to the value of \$400 and above. You can qualify for matching bonus on both your right and left organisation based on weekly sales volume. To maintain BMB you need to have an active NFT on each side of your organisation left and right.

Example Earnings for total sales across each Level down to L4:

**Based on average \$10 000 sales volume weekly per CMM**

- Level 1 \$20 000 you earn \$2 000
- Level 2 \$40 000 you earn \$4 000
- Level 3 \$80 000 you earn \$12 000
- Level 4 \$160 000 you earn \$32 000

# WEEKLY CAP EXPLAINED

- Commissions earned can be used to purchase Gift Vouchers for other members.
- Withdrawals must be requested from the system by Thursday Midnight London time.
- Withdrawals will be paid to the CMM's wallet in USDT TRC20 to the address they provide in the back office
- Commissions will be paid out every Friday by Midday London time without exception.
- Any withdrawal from the system will be charged a 4.5% transaction fee to cover costs.
- Any NFT purchased has a 30-day active period in which the CMM is entitled to earn.
- When the NFT expires the CMM is unable to earn if this exceeds 30 days the account will become inactive, however it will remain accessible.
- Full terms and conditions as well as our refund policy is available in the Back office.

## WEEKLY CAP

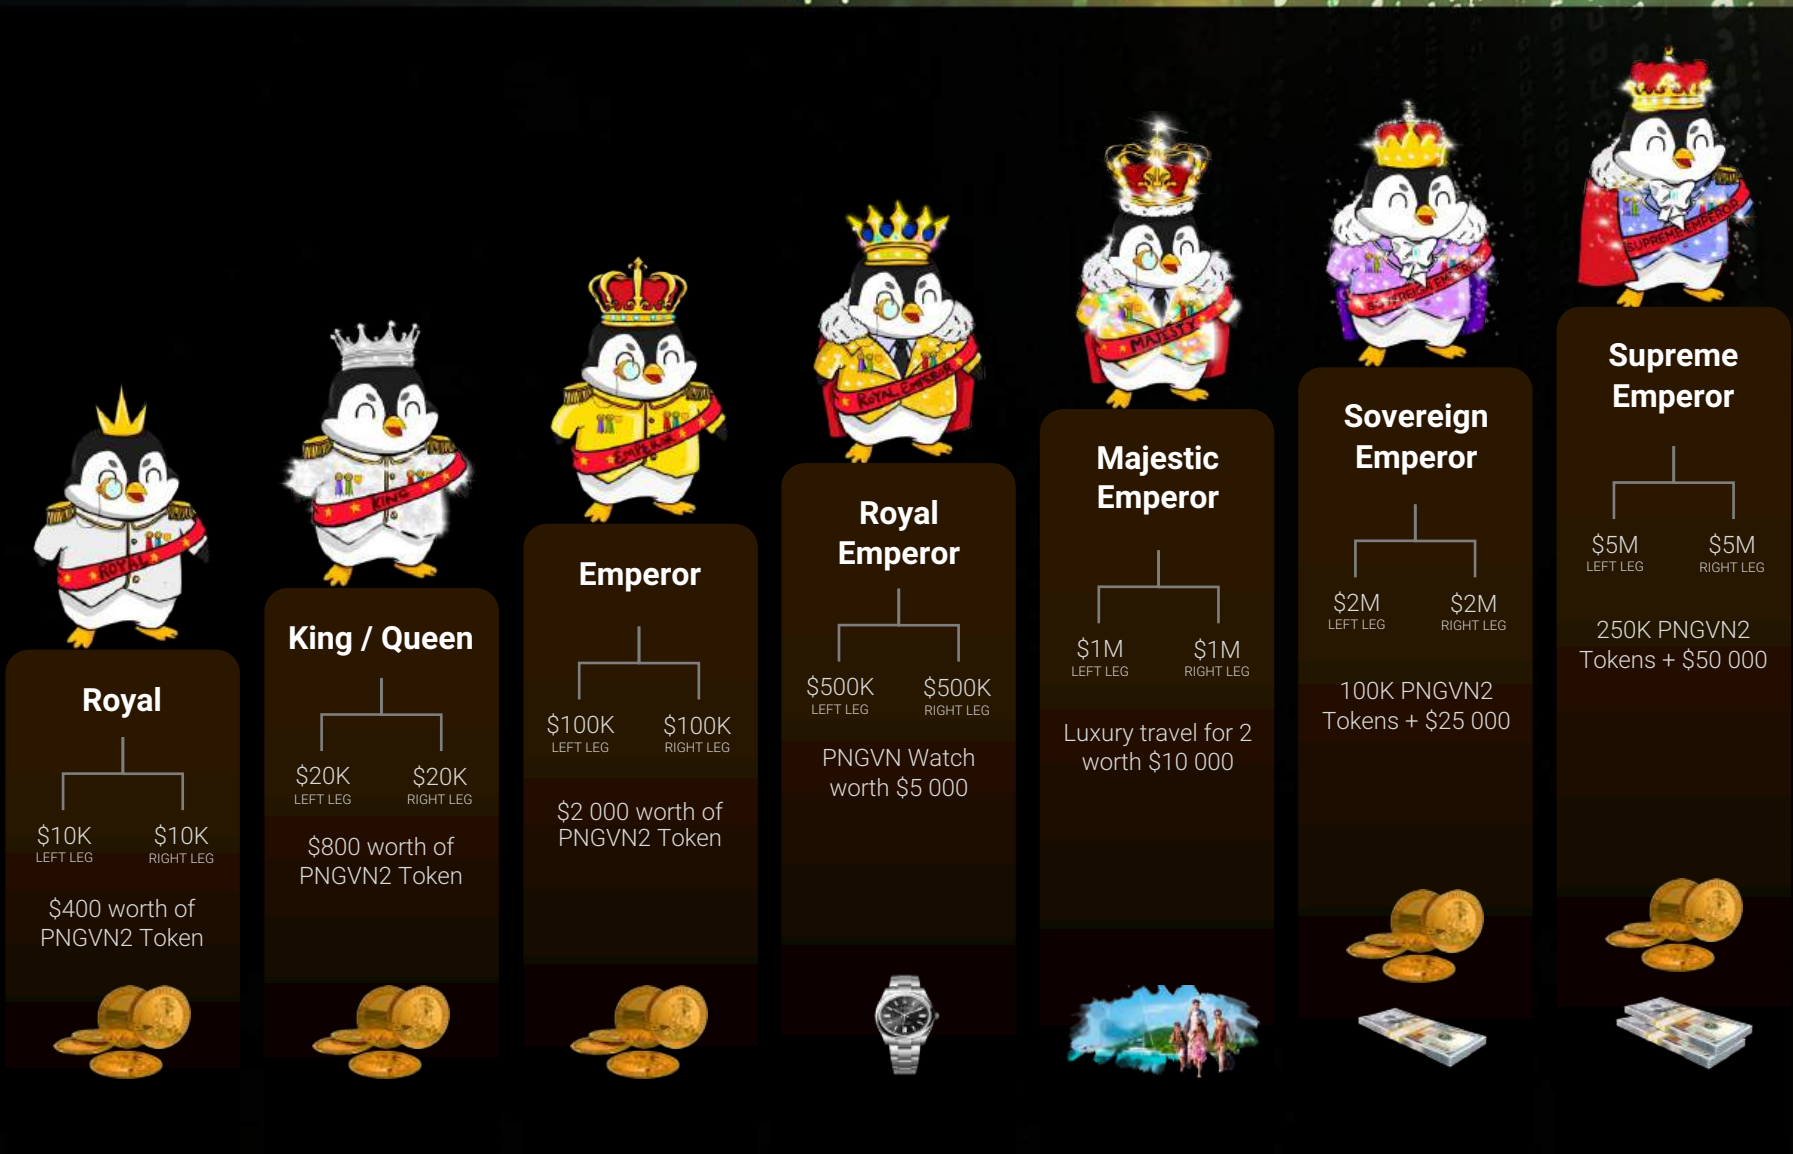

This dictates that the weekly Bonuses earned by one account, cannot exceed 50% of the total sales volume.

50%

# REWARDS & RANKS

- Members must have an active NFT
- Members must have directly sponsored active members on both legs.
- Each position requires its own business volume on each leg as shown in the diagram.
- To maintain the rank you need a minimum 10% volume to keep the rank.

# THE TRIPLE EFFECT

Our unique compounding model

**600%**  
MARKET GROWTH

**CAPITAL INJECTION**  
MONTHLY

**DIVIDEND PAYOUT**  
QUARTERLY

# SUMMARY

What you get when joining the PNGVN family

## Index

Annual 10% profit share of investments

## Dividend

Receive dividends every quarter for staking

## PNGVN

Receive tokens for the value of the NFT

## NFT

Receive a functional brand building NFT

## Community
